NEWS RELEASE

HealthSpace Data Systems Ltd. Names Maureen Garrison Chief Operating Officer

VANCOUVER, BC – April 5, 2016 - HealthSpace Data Systems Ltd. (the “Company” or “HealthSpace”) is pleased to announce that Maureen Garrison has been named Chief Operating Officer.

Ms. Garrison brings ten years of experience in successfully implementing software in the Environmental Health industry. Before joining the HealthSpace team in 2015, she was the Director of Operations at a US based software company. Ms. Garrison brings operational experience as it pertains to direct client implementations and business operations, and also in the alternate methods of working with the data for the purpose of monetization. She is familiar with the operational and technical expertise required to successfully monetize data.

Ms. Garrison commented: “I joined the HealthSpace team because of the direction the company is heading with its technology and its approach to the market. Having worked to implement software in this industry for as long as I have, I know the real needs that exist in the field and HealthSpace is a leader with its technology and implementation approach. I'm excited about the company's future and look forward to working with the team to achieve our growth objectives.”

The Company is also pleased to announce the appointment of Sheryl Dhillon as Corporate Secretary. Ms. Dhillon is a highly experienced corporate secretary with over ten years of experience. She has extensive knowledge of corporate governance, as well as strong management skills and excellent corporate communications. Ms. Dhillon acts as Corporate Secretary for several TSX, TSXV and CSE listed companies.

About HealthSpace Data Systems Ltd.

HealthSpace is an industry leader providing inspection, information and communication management systems for federal, state, county and municipal governments. Over the last decade the Company has successfully developed both enterprise and mobile internet-based applications currently serving over 300 state and local government organizations across North America. Clients range in size from small county organizations to state-wide systems with over 910 concurrent users, as well as national programs. HealthSpace specializes in the field of developing, installing, and maintaining inspection and regulatory management systems for environmental and public health organizations.

Forward-Looking Statements

This release may contain forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although HealthSpace believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. HealthSpace expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.
