### 1. Nature of operations and going concern

Deveron Resources Ltd. ("Deveron" or the "Company") was incorporated under the laws of the Province of Ontario on March 28, 2011. Deveron is a mineral resource company primarily focused on acquisition, exploration and evaluation of mineral properties. On November 27, 2012, Deveron's common shares started trading on the TSX Venture Exchange under the symbol "DVR". The primary office is located at 36 Toronto Street, Suite 1000, Toronto, Ontario, M5C 2C5.

As at June 30, 2015, 65.8% of the Company's issued and outstanding shares are owned by Greencastle Resources Ltd. ("Greencastle"). This gives Greencastle the control over the Company. As such, Deveron is a subsidiary of Greencastle. Further details of Greencastle's share holding interest is disclosed in note 11.

These unaudited condensed interim financial statements have been prepared on a going concern basis, which presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. Certain principal conditions and events are prevalent which indicate that there could be significant doubt about the Company's ability to continue as a going concern for a reasonable period of time. These include: (i) recurring operating losses and (ii) inability to obtain additional financing. Furthermore, additional funding may be required to carry on the exploration and evaluation of the Company's mineral properties. The ability of the Company to fund its potential operations and commitments is dependent upon the ability of the Company to obtain additional financing.

### 2. Significant accounting policies

#### (a) *Statement of compliance*

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of August 14, 2015, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2014. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2015 could result in restatement of these unaudited condensed interim financial statements.

#### (b) *Recent accounting pronouncements*

IFRS 9 - Financial Instruments ("IFRS 9") was issued by the IASB in October 2010 and will replace IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. IFRS 9 is to be effective for annual periods beginning on or after January 1, 2018. Earlier adoption is permitted.
