Notes to condensed consolidated interim financial statements
Three and nine months ended July 31, 2015
(Unaudited - Expressed in Swiss Francs)

1. Nature and continuance of operations

Easymed Technologies Inc., (the "Company") was a medical and health technology services company based on an internet and mobile phone platform offering a range of services and applications for individuals, families, medical and health care professionals and pharmaceutical manufacturers. The Company's registered office is located at Suite 200- 8338 120th Street, Surrey, BC V3W3N4, and the Company shares are traded on the Canadian Securities Exchange ("CSE") under the symbol EZM. Subsequent to the year end, the Company decided to end operations of its wholly owned subsidiary, EasyMed Services S.A and is currently looking for new business opportunities.

These condensed consolidated interim financial statements for the three and nine months ended July 31, 2015 have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. As at July 31, 2015, the Company is not able to finance its day to day activities through operations. The Company's continuation as a going concern is dependent upon the sales of its products and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with loans from directors and companies controlled by directors and through the issuance of its common shares. Should the Company be unable to continue as a going concern, the net realizable value of its assets may be materially less than the amounts on its consolidated statement of financial position.

2. Statement of compliance

These condensed consolidated interim financial statements for the three and nine months ended July 31, 2015 ("2015 Interim Financial Statements") have been prepared in accordance with International Accounting Standards ("IAS") 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). Accordingly, certain disclosures required in annual financial statements have been condensed or omitted. These condensed interim financial statements are intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this Consolidated Interim Financial Report be read in conjunction with the most recent audited consolidated annual financial statements of the Company for the year ended October 31, 2014.

The Board of Directors authorized these consolidated financial statements for issuance on September 23, 2015.

3. Significant accounting policies

Basis of measurement

These consolidated financial statements incorporate the accounts of the Company and its wholly owned operating subsidiary, EasyMed Services S.A. (incorporated in Switzerland). Inter-company balances and transactions are eliminated on consolidation.

These consolidated financial statements have been prepared on historical cost basis and are presented in Swiss Francs.

3. Significant accounting policies (Continued)

Significant estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions concerning the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates: estimates where there is significant risk of material adjustments to assets and liabilities in future accounting periods include fair value measurements for financial instruments and share-based transactions and the recoverability and measurement of deferred tax assets.

Significant judgments: The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in applying the Company's financial statements is the assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty.

Accounting standards issued but not yet applied

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods beginning after November 1, 2014 or later periods.

The following new standards, amendments and interpretations that have not been early adopted in these consolidated financial statements, is not expected to have a material effect on the Company's future results and financial position: IFRS 9 Financial Instruments (new; to replace IAS 39 and IFRIC 9); and Amendments to IAS 32 Financial Instruments: Presentation.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.
