

GLANCE FOUNDERS SPEAKING AT MAJOR INTERNATIONAL BLOCKCHAIN AND CRYPTOCURRENCY EVENTS

January 9, 2018 – Vancouver, B.C. – Glance Technologies Inc. (CSE: GET.CN / OTCQB: GLNNF / FKT: GJT) is announcing that Glance founders Penny Green, and Desmond Griffin are participating as speakers in two high-profile blockchain and cryptocurrency events.

This week, Ms. Green was featured on a panel at [CoinAgenda](#), with content focused on cryptocurrency investment. Ms. Green was featured on a panel alongside Howard Marks of StartEngine and Chris Houser of Polymath. The panel was moderated by Leo Iruk and discussed “The Future of Securities tokens.” This year’s conference was the largest to date with 1000 attendees, 40 speakers and 75 exhibitors. The event was hosted at Caesar’s Palace in Las Vegas and takes place just prior to the Consumer Electronics Show (CES). CoinAgenda is also a sponsor for the [Digital Money Forum](#) at CES.

“Our blockchain and cryptocurrency strategy with the Glance Token is set to revolutionize the way that cryptocurrency is perceived and engaged with. The consumer market has not been adequately addressed and cryptocurrency is still confusing and even a little scary to the average consumer. We are going to change all of that.” said Penny Green, President, COO and Co-Founder of Glance. “I am so grateful to have the opportunity to share our vision and my passion for what is possible with this technology at these events.”

Later this month, Ms. Green and Mr. Griffin are booked to speak in Davos, Switzerland during the inaugural Blockchain Davos Conference. Blockchain Davos is a highly exclusive conference timed to coincide with the annual World Economic Forum held in Davos, where each year global and political leaders gather from every country and sector to collaborate on developing shared initiatives to improve the condition of our world.
