Dr. Ralph deVere White
Named Chairman of the Scientific Advisor Board

Imagin Medical is the developer of the ultrasensitive i/Blue Imaging System that will establish a new standard of care for urologists in detecting bladder cancer through endoscopes.

Vancouver, B.C. and Boston, MA, April 26, 2016 – Imagin Medical (CSE: IME) (the “Company”) is pleased to announce that Ralph DeVere White, M.D., has accepted the position of Chairman of the Company’s Scientific Medical Advisory Board. Dr. deVere White is Associate Dean for Cancer Programs at UC Davis School of Medicine and Director of the UC Davis Comprehensive Cancer Center where he is also a professor of urology. Dr. deVere White is a Past President of the Society of Urologic Oncology.

As previously announced, Imagin Medical entered into a licensing agreement on May 20, 2015, with the Lawrence Livermore National Laboratory (LLNL), a U.S. government technology discovery laboratory with 6300 employees, an operating budget of over \$1.5B and multiple life science commercialization success stories. Working with Dr. Stavros Demos, formerly from LLNL and the inventor of the i/Blue Imaging System, Dr. deVere White evaluated the first prototypes of the technology, via an Internal Review Board (IRB) approval by the UC Davis Medical Center.

Ralph deVere White, M.D

Dr. deVere White received his medical degree from Dublin University in Dublin, Ireland, and completed an internship and residencies in surgery and urology at St. Vincent’s Hospital in Dublin and at Duke University Medical Center in Durham, NC. The author of more than 300 peer-reviewed scientific articles and book chapters, Dr. deVere White serves on the editorial boards of six international scientific journals. He is a member of the Clinical Society of Genitourinary Surgeons and an elected member of the prestigious American Association of Genitourinary Surgeons. He has been named multiple times as one of "The Best Doctors in America" and is one of four urologists serving as a volunteer consultant to the American Cancer Society's on-line "Experts Answers" bulletin board for questions about prostate cancer.

Dr. deVere White is best known for his work in early bladder cancer detection. Jim Hutchens, President and CEO of Imagin Medical, states, "We are very excited to partner with Dr. deVere White. He is a true pioneer in the field of urology and we are extremely grateful that he will continue his clinical evaluation of our technology and provide guidance as the Company works to complete its development. This relationship is key to successfully commercialize and prepare the i/Blue Imaging System for the global marketplace."

About Imagin Medical

Imagin Medical is developing imaging solutions for the early detection of cancer through the use of endoscopes. The Company believes it will radically improve the way physicians detect cancer. Imagin's initial target market is bladder cancer, a major cancer worldwide, the sixth most prevalent in the U.S., and the most costly cancer to treat due to a greater than 50% recurrence rate. Developed at the Lawrence Livermore National Laboratory, this advanced, ultrasensitive imaging technology is based upon improved optical designs and advanced light sensors.
