## INDEPENDENT AUDITORS' REPORT

To the Shareholders of  
Jagercor Energy Corporation

We have audited the accompanying consolidated financial statements of Jagercor Energy Corporation, which comprise the consolidated statements of financial position as at April 30, 2017 and 2016, and the consolidated statements of net and comprehensive loss, changes in equity, and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

### *Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of Jagercor Energy Corporation as at April 30, 2017 and 2016 and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

***Emphasis of Matter***

Without qualifying our opinion, we draw attention to Note 1 in the consolidated financial statements which describes conditions and matters that indicate the existence of a material uncertainty that may cast significant doubt about Jagercor Energy Corporation's ability to continue as a going concern.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

**1. CORPORATE INFORMATION AND GOING CONCERN**

Jagercor Energy Corp. (the “Company”) was incorporated under the laws of the province of British Columbia on 8 June 1987. On 20 January 2011, the Company’s name was changed from Anglo-Canadian Gas Corp. to Jager Metals Inc. Effective 24 January 2014, the Company’s name was changed from Jager Metals Inc. to Jagercor Energy Corp.

The Company is focused on joint commercial opportunities related to acquiring and developing oil and gas properties, with a particular focus on production management and field development in South America, mainly in Argentina.

On 2 August 2013, the Company commenced trading on the Canadian Securities Exchange (“CSE”) under the symbol ‘JEM’.

The principal address and registered and records office is located at Suite, 400 – 725 Granville Street, Vancouver, BC, V7Y 1G5.

These financial statements present the consolidated operations of the Company and its Argentinean controlled subsidiary. The Company’s near term focus is to acquire, develop and produce oil and gas reservoirs suitable for production in Argentina. These consolidated financial statements have been prepared with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation.

The Company’s consolidated financial statements for the year ended 30 April 2017 have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities in the normal course of business. The Company has a comprehensive loss of \$3,213,813 for the year ended 30 April 2017, and has working capital of \$449,320 at 30 April 2017.

The Company had cash and cash equivalents of \$482,229 as at 30 April 2017. Management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. If the Company is unable to raise additional capital in the immediate future, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures or cease operations. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the Company’s ability to continue as a going concern. These consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

**2. BASIS OF PREPARATION**

**2.1 Basis of consolidation**

The consolidated financial statements include the financial statements of the Company and its 96.288% interest in Jager Energía Argentina S.A. On 9 April 2014, the Company purchased 96% interest in Jager Energía Argentina S.A and through subsequent transactions reached 96.87%. On April 21 2017 the Company decreased its capital contribution to its subsidiary, becoming the 96.288% owner of the Argentinean Company.

**Non-controlling interest**

Non-controlling interest in the Company's less than wholly owned subsidiary is classified as a separate component of equity. On initial recognition, non-controlling interest is measured at the fair value of the non-controlling entity's contribution into the related subsidiary. Subsequent to the original transaction date, adjustments are made to the carrying amount of non-controlling interest for the non-controlling interest's share of changes to the subsidiary's equity.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are recorded as equity transactions. The carrying amount of non-controlling interest is adjusted to reflect the change in the non-controlling interest's relative interest in the subsidiary, and the difference between the adjustment to the carrying amount of non-controlling interests and the Company's share of proceeds received and/or consideration paid is recognized directly in equity and attributed to owners of the Company.

	As at 30 April 2017	As at 30 April 2016
Non-controlling interest percentage	3.712%	3.130%
	\$	\$
<b>ASSETS</b>

Non-controlling interest	<b>10,182</b>	105,454
<b>Loss and comprehensive loss</b>	<b>(2,989,952)</b>	(782,396)
<b>Loss and comprehensive loss attributed to non-controlling interest</b>	<b>(110,987)</b>	(24,489)

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

**2.2 Basis of presentation**

The Company's consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value, as explained in Note 16, and are presented in Canadian dollars except where otherwise indicated.

**2.3 Statement of compliance**

The consolidated financial statements for the year ended 30 April 2017 including comparatives, have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee ("IFRIC"). The Board of Directors approved these consolidated financial statements on August 23, 2017.

**2.4 Recent accounting pronouncement**

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or the International Financial Reporting Interpretations Committee ("IFRIC") that are mandatory for accounting periods beginning on or after January 1, 2018. The following standard has not yet been adopted by the Company and is being evaluated to determine its impact:

- IFRS 9: New standard that replaced IAS 39 for classification and measurement, effective for annual periods beginning on or after January 1, 2018.

The following standards, amendments to standards and interpretations have been issued for annual periods beginning on or after January 1, 2019 but are not yet effective:

- IFRS 16 is a new standard that sets out the principles for recognition, measurement, presentation, and disclosure of leases including guidance for both parties to a contract, the lessee and the lessor. The new standard eliminates the classification of leases as either operating or finance leases as is required by IAS 17 and instead introduces a single lessee accounting model.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**3.1 Significant accounting judgments, estimates and assumptions**

The preparation of the Company's consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

The Company's critical judgments in applying accounting policies include judgments regarding the going concern of the Company, which have been discussed in Note 1.

Critical accounting estimates and assumptions developed and applied by management are as follows:

**Share-based payment transactions**

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the stock option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 12.

**Recoverability of investment**

The recoverability of the amount shown for investment had been dependent upon the existence of economically recoverable oil and gas reserves and the continued successful extraction of those reserves, or proceeds from a disposition of the asset itself.

The Catriel Oeste concession expired on October 25, 2016. As a result the Company wrote off the investment during the year ended April 30, 2017 (Note 9).

**3.2 Cash and cash equivalents**

Cash and cash equivalents include highly liquid investments that are readily convertible into known amounts of cash.

**3.3 Principles of consolidation**

Control is achieved when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of loss and comprehensive loss from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Non-controlling interest in the net assets of the consolidated subsidiaries are identified separately from the Company's equity. The non-controlling interest consist of the non-controlling interest's portion of net assets and profit or loss.

All inter-company transactions, balances, income and expenses are eliminated in full on consolidation.

### **3.4 Exploration and evaluation properties**

Exploration and evaluation expenditures include the costs of acquiring licenses, costs associated with exploration and evaluation activity, and the fair value (at acquisition date) of exploration and evaluation assets acquired in a business combination. Exploration and evaluation expenditures are capitalized. Costs incurred before the Company has obtained the legal rights to explore an area are recognized in profit or loss.

Option payments received are treated as a reduction of the carrying value of the related property and deferred costs until the receipts are in excess of costs incurred, at which time they are credited to income. Option payments are at the discretion of the optionee, and accordingly, are recorded on a cash basis.

Exploration and evaluation assets are assessed for impairment if (i) sufficient data exists to determine technical feasibility and commercial viability, and (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount.

Once the technical feasibility and commercial viability of the production of hydrocarbon resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to producing property and development assets within property, plant and equipment.

Recoverability of the carrying amount of any exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognized.

### **3.5 Foreign currencies**

The functional currency of each of the Company's entities is measured using the currency of the primary economic environment in which that entity operates. The Company determined that its functional currency is the Canadian dollar for its parent, and it is the US dollar for its Argentinean subsidiary.

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the period-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

The financial results and position of foreign operations whose functional currency is different from the reporting currency are translated as follows:

- i) assets and liabilities are translated at period-end exchange rates prevailing at that reporting date; and
- ii) income and expenses are translated at average exchange rates for the period.

Exchange gains and losses arising on translation are recognized in accumulated other comprehensive loss.

**3.6 Share-based payments**

Share-based payments to employees are measured at the fair value of the instruments issued and recognized over the vesting periods. Share-based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the goods or services cannot be reliably measured, and are recorded at the date the goods or services are received. The corresponding amount is recorded to the stock option reserve. The fair value of options, as determined using the Black-Scholes Option Pricing Model which incorporates all market vesting conditions, is expensed or capitalized, as appropriate. The number of shares and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognized for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that will eventually vest.

**3.7 Taxation**

Deferred tax is provided, using the liability method, on all temporary differences at the statement of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on the tax rates that have been enacted or substantively enacted at the reporting date.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

**3.8 Financial assets**

Financial assets are classified as financial assets at fair value through profit or loss (“FVTPL”), held-to-maturity, loans and receivables, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial assets at initial recognition. Financial assets are recognized initially at fair value. The subsequent measurement of financial assets depends on their classification as follows:

*Financial assets at FVTPL*

Financial assets are classified as FVTPL and are included in this category if acquired principally for the purpose of selling in the short term or if so designated by management. Derivatives, other than those designated as effective hedging instruments, are also categorized as FVTPL. These assets are carried at fair value with gains or losses recognized in profit or loss. Transaction costs associated with financial assets at FVTPL are expensed as incurred. Cash and cash equivalents and short-term investments are included in this category of financial assets.

*Held-to-maturity and loans and receivables*

Held-to-maturity and loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortized cost using the effective interest method if the time value of money is significant. Gains and losses are recognized in profit or loss when the financial asset classified in this category are derecognized or impaired, as well as through the amortization process. Transaction costs are included in the initial carrying amount of the asset. Amounts receivable and investment are included in this category of financial assets.

*Available-for-sale*

Available-for-sale financial assets are those non-derivative financial assets that are not classified as loans and receivables. After initial recognition, available-for-sale financial assets are measured at fair value, with gains or losses recognized within other comprehensive income. Accumulated changes in fair value are recorded as a separate component of equity until the investment is derecognized or impaired. Transaction costs are included in the initial carrying amount of the asset.

The fair value is determined by reference to bid prices at the close of business on the reporting date. Where there is no active market, fair value is determined using valuation techniques. Where fair value cannot be reliably measured, assets are carried at cost.

*Derivatives designated as hedging instruments in an effective hedge*

The Company does not hold or have any exposure to derivative instruments.

### **3.9 Financial liabilities**

Financial liabilities are classified as financial liabilities at FVTPL, derivatives designated as hedging instruments in an effective hedge, or as financial liabilities measured at amortized cost, as appropriate. The Company determines the classification of its financial liabilities at initial recognition. The measurement of financial liabilities depends on their classification, as follows:

#### *Financial liabilities at FVTPL*

Financial liabilities at FVTPL has two subcategories, including financial liabilities held for trading and those designated by management on initial recognition. Transaction costs on financial liabilities at FVTPL are expensed as incurred. These liabilities are carried at fair value with gains or losses recognized in profit or loss.

#### *Financial liabilities measured at amortized cost*

All other financial liabilities are initially recognized at fair value, net of transaction costs. After initial recognition, other financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any issue costs, and any discount or premium on settlement. Gains and losses arising on the repurchase, settlement or cancellation of liabilities are recognized respectively in interest, other revenues and finance costs. Trade and other payables are included in this category of financial liabilities.

#### *Derivatives designated as hedging instruments in an effective hedge*

The Company does not hold or have any exposure to derivative instruments.

### **3.10 Impairment of financial assets**

Financial assets, other than financial assets at FVTPL, are assessed for indicators of impairment at each period end.

#### *Assets carried at amortized cost*

If there is objective evidence that an impairment loss on assets carried at amortized cost have been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced, with the amount of the loss recognized in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

recognized impairment loss is reversed to the extent that the carrying value of the asset does not exceed what the amortized cost would have been had the impairment not been recognized. Any subsequent reversal of an impairment loss is recognized in profit or loss.

*Available-for-sale*

If an available-for-sale financial asset is impaired, the cumulative loss previously recognized in equity is transferred to profit or loss. Any subsequent recovery in the fair value of the asset is recognized within other comprehensive income.

**3.11 Derecognition of financial assets and liabilities**

Financial assets are derecognized when the rights to receive cash flows from the assets expire or, the financial assets are transferred and the Company has transferred substantially all the risks and rewards of ownership of the financial assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized directly in equity is recognized in profit or loss.

For financial liabilities, they are derecognized when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

**3.12 Impairment of non-financial assets**

The carrying amount of the Company's assets is reviewed for an indication of impairment at the end of each reporting period. If an indication of impairment exists, the Company makes an estimate of the asset's recoverable amount. Individual assets are grouped for impairment assessment purposes at the lowest level at which there are identifiable cash flows that are largely independent of the cash flows of other groups of assets. Recoverable amount of an asset group is the higher of its fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are adjusted for the risks specific to the asset group and are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money.

Where the carrying amount of an asset group exceeds its recoverable amount, the asset group is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in profit or loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognized.

### **3.13 Restoration and environmental obligations**

The Company recognizes liabilities for statutory, contractual, constructive or legal obligations associated with the retirement of long-term assets, when those obligations result from the acquisition, construction, development or operation of the assets. The net present value of future restoration cost estimates arising from the decommissioning of plant and other site preparation work is capitalized to exploration and evaluation assets along with a corresponding increase in the restoration provision in the period incurred. Discount rates using a pre-tax rate that reflect the time value of money are used to calculate the net present value. The restoration asset will be depreciated on the same basis as other exploration and evaluation assets.

The Company's estimates of restoration costs could change as a result of changes in regulatory requirements, discount rates and assumptions regarding the amount and timing of the future expenditures. These changes are recorded directly to the assets with a corresponding entry to the restoration provision. The Company's estimates are reviewed annually for changes in regulatory requirements, discount rates, effects of inflation and changes in estimates.

Changes in the net present value, excluding changes in the Company's estimates of reclamation costs, are charged to profit and loss for the period. The net present value of restoration costs arising from subsequent site damage that is incurred on an ongoing basis during production are charged to profit or loss in the period incurred. The costs of restoration projects that were included in the provision are recorded against the provision as incurred. The costs to prevent and control environmental impacts at specific properties are capitalized in accordance with the Company's accounting policy for exploration and evaluation assets.

For the years presented, the Company does not have any restoration or environmental obligations.

### **3.14 Related party transactions**

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control, related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. See Note 17 for further disclosures.

### **3.15 Earnings/Loss per share**

The Company computes the dilutive effect of options, warrants and similar instruments by recognizing the dilutive effect on loss per share on the use of the proceeds that could be obtained upon exercise of options, warrants and similar instruments. It assumes that the proceeds would be used to purchase common shares at the average market price during the period. For the period presented, this calculation proved to be anti-dilutive.

Basic earnings (loss) per share are calculated using the weighted-average number of shares outstanding during the period.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

**3.16 Comprehensive income (loss)**

Comprehensive income (loss) is the change in the Company's equity that results from transactions and other events from other than the Company's shareholders and includes items that would not normally be included in net earnings. Gains and losses that would otherwise be recorded within profit or loss are presented in other comprehensive income (loss) until it is considered appropriate to recognize into net earnings. The Company's translation of its subsidiary to Canadian dollars is the only item currently affecting other comprehensive income (loss) for the periods presented.

**4. SEGMENTED INFORMATION**

The Company operates in one business segment, being the investment in oil and gas properties. Geographical information is as follows:

	<b>Canada</b>	<b>Argentina</b>	<b>Total</b>
	\$	\$	\$
<b>Current assets</b>			
<b>As at 30 April 2017</b>	<b>198,509</b>	<b>301,903</b>	<b>500,412</b>

	<b>As at 30 April 2017</b>	As at 30 April 2016
	\$	\$
Prepaid Argentinean taxes (i)	-	173,890
<b>Total</b>	<b>-</b>	<b>173,890</b>

(i) During the year ended April 30, 2017 the Company determined that the prepaid Argentinean taxes were not collectable and were written off to general and administrative expenses.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

**9. INVESTMENT**

	<b>As at 30 April 2017</b>	As at 30 April 2016
	\$	\$
Beginning balance	<b>2,925,416</b>	3,959,137
Realized investment returns	<b>(485,601)</b>	(1,171,782)
Foreign exchange adjustment	<b>142,429</b>	138,061
Impairment loss	<b>(2,582,244)</b>	-
<b>Ending balance</b>	<b>-</b>	2,925,416

On 7 August 2014, the Company entered into a field development agreement (the “Agreement”) with Central International Corporation Sucursal Argentina (“Central”), an upstream oil and gas operator in Argentina, to fund the drilling of three wells at Catriel Oeste Oil Concession, located in Rio Negro Province, Argentina.

Under the terms of the Agreement, the Company paid \$4,644,326 (US\$4,153,138) to Central, which was used to drill, complete, and equip three development wells. In the initial phase of the project, 70% of gross proceeds flow to the Company in order to recover its investment.

During the year ended 30 April 2017, realized investment returns were \$485,601 (US\$371,483); during the year ended 30 April 2016 the realized investment returns were \$1,214,430 (US\$950,398).

The Catriel Oeste concession expired on October 25, 2016. In January 2017, Central advised the Company that Central continued to be involved in negotiations with the Rio Negro Province to extend the concession. Central advised the Company that the Province of Rio Negro rejected its offer, denying an extension of the concession agreement. Central operated the Catriel Oeste oil field until the end of February 2017. As a result of Central’s inability to obtain a concession extension, the Company wrote off the remaining balance of the investment and recorded an impairment loss of \$2,582,244.

**10. TRADE AND OTHER PAYABLES**

The Company’s trade and other payables are broken down as follows:

	<b>As at 30 April 2017</b>	As at 30 April 2016
	\$	\$
Trade and other payables	<b>51,092</b>	94,700
<b>Total trade and other payables</b>	<b>51,092</b>	94,700

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

As at 30 April 2017, trade and other payables include: \$ 27,602 (30 April 2016 - \$69,898) in the Argentinean subsidiary (insurance, Argentinean taxes, payroll taxes); and \$23,490 (30 April 2016 - \$24,802) due by the parent company in Canada (April Legal Fees, Web hosting and year-end audit fees).

**11. SHARE CAPITAL**

**11.1 Authorized share capital**

The Company has authorized an unlimited number of common shares with no par value.

At 30 April 2017, the Company had 94,548,491 common shares outstanding (30 April 2016–94,548,491).

**11.2 Shares issuances**

During the year ended 30 April 2017 the Company did not issue common shares.

During the year ended 30 April 2016 the Company issued common shares as follows:

On 2 April 2015, the Company announced it had made arrangements to settle \$12,000 in debt in outstanding fees owed to a Director of the Company. The shares were issued during the year ended April 30, 2016.

**11.3 Stock options**

On December 19, 2016, the Company adopted a formal Stock Option Plan (the “Option Plan”). Under the Option Plan, the exercise price of each option must not be less than the greater of the closing market price of the underlying securities on (a) the trading day prior to the date of grant and (b) the date of the grant of the stock options. The options can be granted for a maximum term of five years. The maximum number of options that can be issued may not exceed 10% of the issued and outstanding common share capital. The options vest at the discretion of the Board of Directors. The terms of the existing stock options remain in accordance with the stock option plan in place at the time the options were granted.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

The following is a summary of the changes in the Company's stock options for the year ended 30 April 2017 and 2016:

	2017		2016	
	Number of options	Weighted average exercise price \$	Number of options	Weighted average exercise price \$
Outstanding, beginning of year	14,060,428	0.24	14,260,428	0.24
Expired	(13,710,428)	(0.24)	(200,000)	(0.33)
<b>Outstanding, end of year</b>	<b>350,000</b>	<b>0.07</b>	14,060,428	0.24

There were no options granted during the year ended April 30, 2017 and the year ended 30 April 2016. The Company uses the Black-Scholes Option Pricing Model to estimate the value of the options granted. The following table summarizes information regarding stock options outstanding and exercisable as at 30 April 2017:

Grant date	Expiry date	Number of options outstanding	Number of options exercisable	Exercise price \$	Remaining contractual life (years)
21 August 2013	21 August 2018	350,000	350,000	0.07	1.31
<b>Total Options</b>		<b>350,000</b>	<b>350,000</b>		

#### 11.4 Warrants

The following is a summary of the changes in the Company's warrants for the year ended 30 April 2017 and 2016:

	30 April 2017		30 April 2016	
	Number of warrants	Weighted average exercise price \$	Number of warrants	Weighted average exercise price \$
Outstanding, beginning of year	13,661,720	0.12	15,583,800	0.12
Expired	(13,661,720)	(0.12)	(1,922,080)	(0.11)
<b>Outstanding, end of year</b>	<b>-</b>	<b>-</b>	13,661,720	0.12

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

There were no warrants issued during the year ended April 30, 2017 and 2016. The Company uses the Black-Scholes Option Pricing Model to estimate the value of the options granted.

As at 30 April 2017, there were no outstanding warrants.

**12. SHARE-BASED PAYMENTS**

Share-based payments for the options granted by the Company are amortized over their vesting period, of which \$Nil was recognized in the year ended 30 April 2017 and 2016.

**13. TAXES**

**13.1 Provision for income taxes**

The difference between tax expense for the year and the expected income taxes based on the statutory tax rate arises as follows:

<b>Years ended 30 April</b>	<b>2017</b>	<b>2016</b>
	\$	\$
Loss before income taxes	<b>(3,391,809)</b>	<b>(1,331,166)</b>
Tax recovery	<b>(881,900)</b>	<b>(346,000)</b>
Change in statutory, foreign tax, foreign exchange rates and other	<b>(276,100)</b>	<b>(24,000)</b>
Permanent Difference	<b>903,800</b>	<b>128,000</b>
Share issue costs	<b>(19,800)</b>	<b>(20,000)</b>
Change in unrecognized deductible temporary differences	<b>274,000</b>	<b>262,000</b>
<b>Total income tax expense (recovery)</b>	<b>-</b>	<b>-</b>

**13.2 Deferred tax balances**

The tax effects of temporary differences that give rise to deferred income tax assets and liabilities are as follows:

<b>Year ended 30 April</b>	<b>2017</b>	<b>2016</b>
	\$	\$
Exploration and evaluation assets	<b>3,000</b>	<b>3,000</b>
Share issue costs	<b>10,000</b>	<b>16,000</b>
Non-capital losses available for future periods	<b>1,368,000</b>	<b>872,000</b>
Unrecognized deferred tax assets	<b>(1,381,000)</b>	<b>(891,000)</b>
<b>Net deferred tax assets</b>	<b>-</b>	<b>-</b>

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

The significant components of the Company's temporary differences, unused tax credits and unused tax losses that have not been included on the consolidated statement of financial position are as follows:

	2017	Expiry Date Range	2016	Expiry Date Range
<b>Temporary Differences</b>	<b>\$</b>		<b>\$</b>	
Exploration and evaluation assets	<b>13,000</b>	No expiry date	<b>13,000</b>	No expiry date
Share issue costs	<b>39,000</b>	2037 to 2039	<b>63,000</b>	2037 to 2039
Non-capital losses available for future period	<b>3,746,000</b>	2029 to 2037	<b>2,907,000</b>	2029 to 2036

**14. EARNINGS (LOSS) PER SHARE**

The calculation of basic and diluted earnings (loss) per share is based on the following data:

<b>Year Ended 30 April</b>	<b>2017</b>	2016
Net loss for the year	<b>\$(3,391,809)</b>	\$(1,331,166)
Weighted average number of shares – basic and diluted	<b>94,548,491</b>	94,529,365
<b>Loss per share, basic and diluted</b>	<b>\$(0.036)</b>	\$(0.014)

**15. CAPITAL RISK MANAGEMENT**

The capital structure of the Company consists of equity attributable to common shareholders, comprising of issued capital and deficit. The Company's objectives when managing capital are to: (i) preserve capital and (ii) obtain the best available net return.

The Company manages the capital structure and makes adjustments to it in light of changes in economic condition. To maintain or adjust the capital structure, the Company may attempt to issue new shares or issue new debt.

The Company is listed on the CNSX. The Company is not subject to externally imposed capital requirements. Management plans to continue to evaluate and explore commercial opportunities, with an emphasis on acquiring and developing oil and gas properties with particular focus in the near term, over energy concessions.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

**16. FINANCIAL INSTRUMENTS**

**16.1 Categories of financial instruments**

	<b>30-Apr-17</b>	<b>30-Apr-16</b>
	\$	\$
<b>FINANCIAL ASSETS</b>		
<b>FVTPL, at fair value</b>		
Cash and cash equivalents	482,229	321,493
Short-term investment	-	249,357
<b>Loans and receivables</b>		
Investment	-	2,925,416
Amounts receivable	1,560	70,406
<b>Total financial assets</b>	<b>483,789</b>	<b>3,566,672</b>
<b>FINANCIAL LIABILITIES</b>		
<b>Other liabilities, at amortized cost</b>		
Trade and other payables	51,092	94,700
<b>Total financial liabilities</b>	<b>51,092</b>	<b>94,700</b>

**16.2 Fair Value**

The fair value of the Company's amounts receivable, and trade and other payables, approximate carrying value, which is the amount recorded on the consolidated statement of financial position. The Company's other financial instruments, cash and cash equivalents, and short-term investment, under the fair value hierarchy are based on level one quoted prices in active markets for identical assets or liabilities.

The following table provides an analysis of the Company's financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to 3 based on the degree to which the inputs used to determine the fair value are observable.

- Level 1 fair value measurements are those derived from quoted prices in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1, that are observable either directly or indirectly.
- Level 3 fair value measurements are those derived from valuation techniques that include inputs that are not based on observable market data. As at 30 April 2017, the Company does not have any Level 3 financial instruments.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

<b>As at 30 April 2017</b>	<b>Level 1</b>	<b>Total</b>
	\$	\$
<b>Financial assets at fair value</b>		
Cash and cash equivalents	482,229	482,229
Short-term investments	-	-
<b>Total financial assets at fair value</b>	<b>482,229</b>	<b>482,229</b>

<b>As at 30 April 2016</b>	<b>Level 1</b>	<b>Total</b>
	\$	\$
<b>Financial assets at fair value</b>		
Cash and cash equivalents	321,493	321,493
Short-term investments	249,357	249,357
<b>Total financial assets at fair value</b>	<b>570,850</b>	<b>570,850</b>

There were no transfers between Level 1 and 2 during the year ended 30 April 2017.

### **16.3 Management of financial risks**

The financial risk arising from the Company's operations are credit risk, liquidity risk, interest rate risk, currency risk and commodity price risk. These risks arise from the normal course of operations and all transactions undertaken are to support the Company's ability to continue as a going concern. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

#### **Credit risk**

Credit risk is the risk of an unexpected loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises primarily from the Company's cash and cash equivalents. The Company manages its credit risk relating to cash and cash equivalents by dealing with only with highly-rated financial institutions. As a result, credit risk is considered insignificant.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

**Liquidity risk**

The Company is reliant primarily upon equity issuances as its sole source of cash. The Company manages liquidity risk by maintaining an adequate level of cash and cash equivalents and short-term investments to meet its ongoing obligations. The Company continuously reviews its actual expenditures and forecast cash flows and matches the maturity dates of its cash and cash equivalents and short-term investments to capital and operating needs. The Company has been successful in raising equity financing in the past; however, there is no assurance that it will be able to do so in the future. As at 30 April 2017, the Company had a working capital of \$449,320.

**Other risks**

Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest or price risk arising from these financial instruments.

The Company may have available funds in Argentina. Thus, the Company's ability to repatriate funds from Argentina is governed by the Argentine Republic Central Bank (BCRA), which imposes a number of monetary and currency exchange control measures that may include tight restrictions to access foreign currency to transferring funds abroad.

The Company is exposed to foreign currency risk on fluctuations related to cash and cash equivalents, amounts receivable, and trade and other payables that are denominated in US dollars and Argentinean Pesos. 10% fluctuations in the US dollar and Argentinean Pesos against the Canadian dollar would give rise to a \$45,000 change in comprehensive income.

**17. RELATED PARTY TRANSACTIONS**

**17.1 Shares to be issued**

The liabilities of the Company include the following amounts due to related parties:

	<b>30 April 2017</b>	30 April 2016
	\$	\$
CEO (shares to be issued)	<b>29,200</b>	29,200
<b>Total amount (shares to be issued)</b>	<b>29,200</b>	29,200

As at 30 April 2017, related parties include an incentive bonus payable to compensate the Chief Executive Officer payable in 730,000 common shares at a price of \$0.04 per share. Issuance pending since 2015.

The amounts due to related parties are non-interest bearing, unsecured and due on demand.

**Jagercor Energy Corp.**  
**Notes to the Consolidated Financial Statements**  
30 April 2017  
(Expressed in Canadian dollars)

---

**17.2 Key management personnel compensation**

The remuneration of directors and other members of key management were as follows:

<b>Year ended 30 April</b>	<b>2017</b>	<b>2016</b>
	<b>\$</b>	<b>\$</b>
Short-term benefits – Management fees	<b>188,870</b>	474,553
Short-term benefits – Director fees	<b>6,000</b>	6,000
<b>Total key management personnel compensation</b>	<b>194,870</b>	480,553

**18. SUPPLEMENTAL CASH FLOW INFORMATION**

As at April 30, 2017, \$ Nil (2016 - \$69,648) was accrued in amounts receivable related to the investment.

During the year ended 30 April 2017, the Company recognized investment impairment of \$2,582,244 (2016 - \$Nil).

During the year ended 30 April 2017, the Company made \$Nil cash payments for interest.

During the year ended 30 April, 2017 \$ Nil (2016 - \$ Nil) was paid for income taxes.

**19. SUBSEQUENT EVENTS**

On June 9 2017, the Company's has granted incentive stock options to directors and officers for the right to purchase up to an aggregate of 5,000,000 common shares.

On August 9 2017, the Company announced it entered into an agreement to purchase a controlling interest in Energia Compañía Petrolera Sociedad Anónima ("ECP"), an upstream oil and gas Argentinean Operator in Neuquén Basin, the Country's main hydrocarbon basin. The acquisition will be completed as a non-cash transaction. Jagercor will acquire 95% interest in ECP. As consideration for the acquisition, Jager Energia Argentina SA ("JEA"), the Company's subsidiary in Argentina, will issue to ECP new shares equal to a 40% equity interest in JEA. This transaction is not subject to regulatory approval but proceeding with an extraordinary shareholder meeting in the Argentinean subsidiary (JEA).
