**GLOBAL REMOTE TECHNOLOGIES  
ANNOUNCES \$300,000 PRIVATE PLACEMENT**

NOT FOR DISTRIBUTION TO UNITED STATES NEWSWIRE SERVICES OR FOR  
DISSEMINATION IN THE UNITED STATES

Vancouver, B.C. – (January 12, 2016) Global Remote Technologies Ltd. (the “**Company**”) (CSE:RGT), Frankfurt Stock Exchange:GR9) has approved a private placement of up to 2,000,000 shares (the “**Shares**”) at a price of \$0.15 per Share for proceeds of up to CAD \$300,000 (the “**Offering**”). The Company may pay a cash commission to certain finders based on gross proceeds raised equal to up to 10% payable in cash and 10% payable in broker warrants (each, a “**Broker Warrant**”). Each Broker Warrant shall entitle the holder to acquire one Share at a price of \$0.15 per Share for a period of 1 year from the date of issuance.

All securities issued under the Offering will be subject to a four-month and one day hold period.

This press release does not constitute an offer to sell or a solicitation of an offer to buy securities in the United States. The securities referenced herein have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**U.S. Securities Act**”), or any state securities laws and may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the U.S. Securities Act) except in compliance with one or more exemptions from the registration requirements of the U.S. Securities Act and applicable state securities laws.

**About Global Remote Technologies**

The Company focuses on the deployment of emerging technologies for the energy sector. The Company has licensed multiple patent pending tools for the oil and gas industry. Using its advanced engineering and leadership experience, the Company brings cutting edge processes and technology to the oil patch. Its remote sensor packages transmit telemetry from drilling and production sites in real time to a central server where it is viewed in the cloud. The systems are designed to provide key personnel an early warning system to avoid equipment failures or costly compliance fines. The Company collects and communicates vital information on the status of equipment, tanks, and pipelines for exploration, production, and transmission of oil, gas and water. In addition, the Company recently acquired a Helix downhole well simulation tool and related technology. The tool uses a patent pending design and engineering method to achieve a unique flow pattern for wellbore simulation. The Company is headquartered in Vancouver, BC, with offices in Denver, Colorado and Houston, Texas.
