GLOBAL REMOTE TECHNOLOGIES LTD. INVITED TO MEETING WITH PDC ENERGY IN DENVER

Vancouver, B.C. – 19 September 2017- Global Remote Technologies Ltd. (the “Company”) (CSE:RGT), (Frankfurt Stock Exchange:GR9) is pleased to announce it was asked by PDC for its senior leadership to meet with the PDC Energy (NASDAQ: PDCE) in Denver, CO.

PDC has been named in a suit by the Federal government (<https://www.cnbc.com/2017/06/26/reuters-america-update-2-u-s-colorado-sue-pdc-energy-claiming-clean-air-act-violations.html>) for violations of the EPA Clean Air Act. PDC was one of GRT’s original customer prospects, but due to the economic down turn in the Energy sector, no further efforts were conducted. Now, due to the liability PDC has incurred, GRT has been reengaged to meet and discuss potential options for mitigation of PDC’s fugitive vapor violations. GRT’s Prospector technology monitors many of the sources of these emissions and has been proven to help prevent unintentional releases. GRT is hopeful to be able to engage and work with PDC to solve some of the problems they are facing.

More information will be released as the situation develops. Pleasetay tuned for future releases on this matter.

About Global Remote Technologies

The objective at Global Remote Technologies is to reduce operational costs in the energy domain, specifically the oil sector, with unique, proprietary techniques and technologies that support upstream, midstream and downstream processes. Services are developed to create custom solutions that improve performance, improve health and safety standards, and bring significant savings to clients. GRT operates in rugged locations around the globe, with offices in Canada, Mexico, Oman, and the United States. Global Remote Technologies is a public company, traded in Canada and Germany under the symbols CSE: RGT and FRA: GR9.
